

TO BUILD Y. M. C. A.

Proposal to Construct Home for Young Men.

WILL BE A LARGE BUILDING

Young's Men's Christian Association Home Will be Built in New York City to Care for Young Men Coming to Big City.

NEW YORK, Jan. 26.—Seth Low and Cleveland H. Dodge addressed a large gathering of men and women last night, advocating the building here of a great Young Men's Christian Association

home. It is hoped that this home may be such that young professional men coming to this city to seek their fortunes may be looked after morally and physically in it to the end that these new young citizens may become potent in the life of the city and helping clean government come about with fair ballots and honest counts. The money is thought to be in sight. "It should come from one man or a group of a few men," said Mr. Dodge.

The site now in view is in Fifty-seventh street near Columbus avenue. The building as contemplated will be one of the largest used in Y. M. C. A. work in the world.

"One of the chief needs of this country," said Mr. Low, "is a greater number of men who do not have to work for a living. This class of people can give their time and ability to working for their communities."

"We do not know how many men of great power and ability we are missing by not being able to get in touch with them and guide them to the right places where their influence for good will tell."

On the advisory board of the inter-collegiate branch of the Y. M. C. A. are Mrs. John D. Rockefeller, Mrs. Edwin Gould, and other prominent women.

WOULD BE THUG.
Chicago Police Capture Thug About to Commit Crime.

CHICAGO, Jan. 26.—"Just a plain hard luck story with no excuse to offer," was the way William Garland, twenty-four years of age, summed up his own story after he had been arrested at State and Washington streets tonight.

Garland told the police he was the son of Augustus H. Garland, former United States Attorney General. His actions had aroused the suspicion of two detectives, and when they searched him they found a piece of stone wrapped in a stocking, concealed under his coat. He had been lingering near a large jewelry store for several hours. When taken to the central station he made the following confession: "I simply was down and out, and I had hunted for work without success. Then I read in the papers of the easy way in which holdup men had smashed jewelry store windows and got away with the goods and I decided that I would turn robber."

When the police went to his rooms to search them they found several un-

finished stories, which evidently he was preparing for a magazine. A college diploma also was found in the room. The arrest of Garland was the first result of the work of a squadron of detectives detailed to guard the jewelry stores of the city following the many recent robberies. Windows of two stores were smashed yesterday by men who escaped with jewelry valued at \$1,000.

WOMAN SEES STARS.

Discovers Twenty-five New Variable Stars.

CAMBRIDGE, Mass., Jan. 26.—The discovery of twenty-five new variable stars by Miss Henrietta S. Leavitt by a recent examination of plates taken with a twenty-four-inch telescope was announced yesterday by the Harvard Observatory. Six of these stars are in the constellation of Orion, three in the constellation of Virgo and sixteen in the constellation of Cygnus. All the plates are of extremely fine quality, the images of at least 200,000 stars having been caught with the clearness that will permit of comparisons. The new variables in the Cygnus are in the region of the great spiral Nebula.
